ELECTIVE COURSE CREDIT OPTIONS

Students completing the MS in Nutrition & Food Systems (Plan B, online) complete 12 credit hours of elective coursework. We offer elective options in DHN, but students can also look outside of the department (before enrolling, confirm with DHN Director of Graduate Studies that course will fulfill those elective hours). Do note that many graduate level courses have specific pre-requisites and enrollment restrictions so not all are available to all students. As well, UK course offerings are constantly expanding - see the [UK Course Catalog](#) for specifics. We have included in the list below some of the elective options to consider, but this is not all-inclusive!
